

Accounting Careers Awareness Program

Sponsored by

"Lifting As We Climb"

The Alabama Chapter of the National Association of Black Accountants, Inc. (NABA) will sponsor the Accounting Career Awareness Program (ACAP), June 27th-July 2nd on the campus of The University of Alabama, Tuscaloosa.

ACAP was created to provide early exposure of the career opportunities in the accounting, finance and other business related fields to high school students. This one-week residency program provides students an excellent opportunity to not only learn more about their future career opportunities, but also to meet other students in the area that share the same interest in the accounting profession.

ACAP will provide hands on learning experiences, enhanced with tours to major corporations. A series of classes will introduce students to accounting, marketing, and management, as well as shared business experiences and tips for success from professional business leaders.

This year, we are anticipating sponsoring a maximum of 20 students. These students will attend ACAP with all expenses paid. Students will be selected for ACAP through the application process. All applicants must be either a junior or senior, have a current minimum GPA of 2.5 and meet all requirements outlined in the application. Your assistance is needed in identifying a diverse group of qualified candidates from ethnic minority backgrounds at your respective school.

If you would like to receive more information about the program or request the applications please contact me. Thank you in advance for your assistance and I look forward to hearing from you.
